Introducing The EQ

Based in the heart of Westminster, **The Evidence Quarter** (The EQ) is home to a growing number of evidence-minded organisations, including What Works Centres. Many organisations overlap in their goals of powering evidence based change together for good in public sector areas.

By bringing them together in one geographical space, the EQ aims to increase collaboration, reduce duplication and tackle joint challenges together. More than just an office space, we aim to facilitate evidence-minded organisations to become greater than the sum of their parts. By working together, we seek to increase members' impact and deliver evidence-based change for society.

The EQ has prominence in its proximity to Government, but as a group of independent organisations we want to use our collective power to widen our outreach to the rest of the UK and beyond. The more The EQ organisations can work together and share resources and ideas, the more impact they can have.

Join Us

The EQ is more than just an office. It is also a spiritual home for a wider, like-minded community; encouraging organisations who value evidence to come together and collaborate. We want to expand the network of people that are part of The EQ, particularly drawing in those that are outside of London, in turn expanding the diversity of our community.

We are therefore delighted to introduce [The EQ Membership](#) for evidence-minded individuals and organisations who would like to be part of our network. If you require flexible working space, or are interested in a permanent home.

Membership gives you the opportunity to be part of an exciting growing evidence-focused network. When you become a member of The EQ, you will have the opportunity to access a wealth of experience and practical support to help you develop research, adopt best practice and meet others who can inspire you.
