# Introducing The EQ

Based in the heart of Westminster, **The Evidence Quarter** (The EQ) is home to a growing number of evidence-minded organisations, including What Works Centres. Many organisations overlap in their goals of powering evidence based change together for good in public sector areas.

By bringing them together in one geographical space, the EQ aims to increase collaboration, reduce duplication and tackle joint challenges together. More than just an office space, we aim to facilitate evidence-minded organisations to become greater than the sum of their parts. By working together, we seek to increase members' impact and deliver evidence-based change for society.

The EQ has prominence in its proximity to Government, but as a group of independent organisations we want to use our collective power to widen our outreach to the rest of the UK and beyond. The more The EQ organisations can work together and share resources and ideas, the more impact they can have.
